

### December class council discussion

We are looking at ways to improve our journey to school.

What things do the children in your class think would make their journey to school safer?

We think that a zebra crossing needs painting where the cars come out of the Village hall car park.

It isn't safe to walk from Melbourn using the bridge because it is too narrow and isn't safe.

We have to keep a look out because cars might crash into path.

We would like a cycle path near the bridge so that children who live in Melbourn can cycle to school in the summer.

What do they think is the best bit about their journey to school?

We like cycling or scooting to school in the summer.
