

MUCK, MESS AND MIXTURES

This half term, we're going to make a mess! Wren Class will explore colour, mixtures and the works of Roald Dahl.

During our English lessons, we will look at a variety of Roald Dahl texts. The children will then create instructions, adverts and narrative inspired by our class books.

We will also recap our spelling and grammar work.

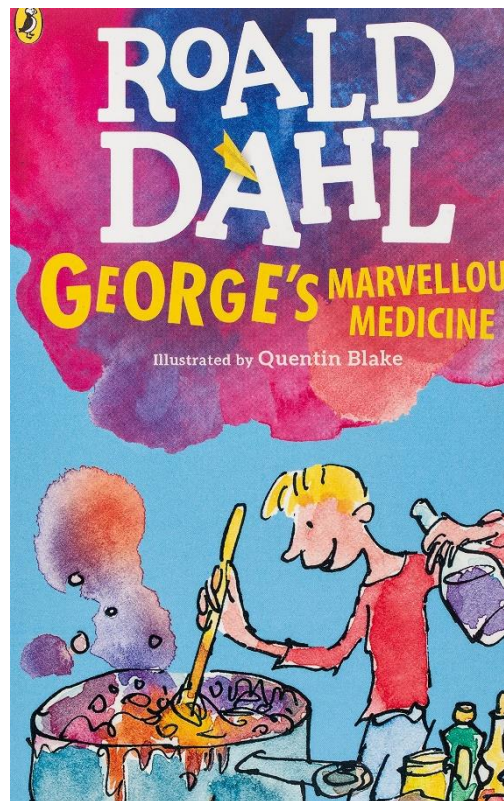

In maths, Wren Class will work on time and statistics. We will then explore position and direction.

In science, the children will continue to look at living things (plants and animals) and their habitats.

In geography, we will continue to look at our oceans but with a focus on environmental change.

In RE, the children will explore the big question Where do people find God in nature?

Our PSHCE will focus on personal safety.

This half term, the children will explore a healthy diet in DT.

Our music and computing work will combine this half term and we will focus on making music using Purple Mash.

In PE, the children will swim twice a week and join Puffin and Swift for athletics on a Friday.

Mrs Hardwick will take the class for the art unit Colour Creations. The children will mix colours and look at a variety of famous artists.

Show & Tell will continue on a Thursday (starting from week 2).
