Our trampolining sessions are open to children from 4yrs upwards. Children can work their way through the trampoline proficiency awards and can also take part in competitions if they would like. Trampolining promotes fitness &amp; physical development, learning &amp; organisational skills, improves memory, boosts confidence and above all is fun.</p> <p>We have fully qualified British Gymnastics trampoline coaches assisted by junior coaches. All our qualified coaches are CRB checked and have safeguarding training. We have one coach per trampoline - so whilst on the trampoline each child has 1:1 coaching. We work through the BG trampolining proficiency awards. Each child has their own work sheet and is able to progress at their own speed. Coaches use safe progressions to teach new skills and are able to adapt their coaching to suit the needs of each child. There are opportunities to compete at local, regional and national competitions if the child is interested in competing.</p>

We work with small groups, covering a wide variety of arts activities including drawing, painting, collage, sculpture, printmaking and textiles. Our aim is to inspire and enable creative children and young people in the Deepings and surrounding areas to further their engagement with the arts.</p> <p>Through our classes, we help children develop an understanding and appreciation of a variety of visual art forms. Our classes aim to encourage students' creativity and self expression, building a sound knowledge of basic art theory skills and enabling them to become confident in the use of different media and techniques. With the younger classes, we encourage enjoyment of the process rather than focusing on a particular outcome, which helps children to relax and enjoy the session without worrying about making mistakes.</p> <p>We also offer Arts Award courses from the introductory Discover level up to Silver level (GCSE equivalent)- this is a great way for children and young people to gain recognition for their creativity through working towards an endorsed qualification.</p>

Our lessons consist of age appropriate activities to teach both the traditional side of Taekwondo (patterns) and the sport side (sparring; as seen at the Olympic Games). There is a large focus on motor skills as well as social skills and discipline as the students move through the grades.</p> <p>Key outcomes are learning specific patterns and techniques at each grade. Once learnt the children will take part in an exam (grading) and show what they have learnt to try and get a new belt (grade). The grading system is: white belt (purple belt, orange belt, brown tag, brown belt added for 4-6 year olds) yellow tag, yellow belt, green tag, green belt, blue tag, blue belt, red tag, red belt, black tag, black belt 1st dan. Students can then progress further by gaining higher Dan grades (1-9). On top of the traditional techniques we look for at a grading, our other examination criteria is that the children have got fitter, more confident and more flexible since their last examination. Our classes aim to improve motor skills, social skills, team working, strength, discipline, self control and perseverance; all of which are looked at during gradings.</p>

Girls follow the programme of Girlguiding UK both undertaking team activities and working on their own. In addition the leaders organise adventurous activities and sometimes camps and outings, both just for our Unit and to include Guides, Brownies, Rangers and Rainbows in the area.</p> <p data-bbox="1532 895 2085 1318">The aim is to encourage co-operative working and allow girls to develop and grow in a safe girl-only space. As girls grow older the activities are more girl led than leader led. A programme is followed which leads eventually to girls being awarded achievement awards for team working, skills gained and individual activities carried out.</p>

<p style="text-align: center;"><b>Peterborough Challenges</b></p> 	<p>Twice a month, Peterborough Children's University launches a new challenge, which can be completed to earn stamps for your passport. They cover a range of activities and there is often more than one challenge each month, or a selection of ways in which you can complete the challenge. This means it is open and suitable for all ages and the outcome of the challenge can be age appropriate.</p> <p>Here are some examples of the challenges:</p> <div style="display: flex; justify-content: space-around;"> <div data-bbox="562 544 1122 1394" style="width: 45%;">  <p style="text-align: center;">Bexley Children's University Harry Potter challenge</p> <p>31<sup>st</sup> July is Harry Potter's birthday and to celebrate all things magical, you have the choice of completing 3 different challenges!</p> <div style="display: flex; justify-content: space-around;">   </div> <p style="text-align: center;"><b>Challenge 1 – Create a spell book</b></p> <p>Your challenge is to create a spell book with at least 5 different spells. Each spell will need to do something different and you will need to decide how the spell will be cast! It will be up to you to decide what the book looks like!</p> <p style="text-align: center;"><b>Challenge 2 – Design a Quidditch team</b></p> <p>Your challenge is to design a Quidditch team! You will need to decide on a name, a kit for the players to wear and also decide who your players would be! For more information on Quidditch, here is a link: <a href="https://www.wizardingworld.com/features/a-bloggers-guide-to-quidditch#:~:text=There%20are%20seven%20players%20on%20a%20team%20and%20a%20game">https://www.wizardingworld.com/features/a-bloggers-guide-to-quidditch#:~:text=There%20are%20seven%20players%20on%20a%20team%20and%20a%20game</a></p> <p style="text-align: center;"><b>Challenge 3 – Design a present for a wizard</b></p> <p>You will need to think about the best present you could give a wizard. BUT, they already have a wand, an owl and an invisibility cloak, so it will need to be an original idea! :)</p> <div style="display: flex; justify-content: space-around;">    </div> <p>For each activity you complete, you will earn a 1hr stamp for your passport. All you need to do is attach a photo or video of your work when 'handing' it in.</p>  </div> <div data-bbox="1122 544 2114 1394" style="width: 45%;">  <p style="text-align: center;">Peterborough Children's University December 2021 Challenges</p> <p>We are always looking for ways that you can earn stamps for your passport without it costing any money, so here are 6 challenges you can do without spending a penny! ### Comic Art Masterclass

## Further information

Keve F Sutherland is an author and artist who has been writing and drawing comics for everyone from Beano to Marvel, Doctor Who to Viz, Red Dwarf to The Dandy and all points in-between for some years now. He has even published comic books of his own, including Findlay Macbeth, The Prince of Denmark Street, and The Midsummer Night's Dream Team.

Keve regularly runs a Comic Art Masterclass, where he teaches pupils all there is to know about making comic strips and manga. Working with any age from 7 upwards, by the end of a session the group will have produced a comic containing a strip by every single one of them, a copy of which they take home, plus he will have drawn a caricature of every one of them. Since lockdown, his classes are now also available online - social distance no object!

You can either take part in a virtual Comic Art Masterclass or at a local event when he is able to get out and about! You will earn a 2hr stamp for taking part – simply email a copy of the comic you produce and a photo of your caricature to [Bexley.CU@Bexley.gov.uk](mailto:Bexley.CU@Bexley.gov.uk) and we will issue you with a Learning Credit Slip!

Please visit his website and Facebook page for details of upcoming Comic Art Masterclasses!

<p>TechWeCan</p> 	<p>TechWeCan is a set of free lesson plans and resources designed to be taught to both boys and girls. The lessons were originally set up to be taught by teachers in the classroom but now available to parents and carers for teaching at home. They are all mapped to the National Curriculum and are structured, fun learning packs all about careers in technology and the use of technology in everyday lives.</p> <p>We also have TechTuesdays which are pre-recorded lessons available for your child to access at home. These are around 20 -40 minutes long followed by an optional challenge for your child to complete.</p> <p>The TechWeCan lessons plans and TechTuesday pre-recorded lessons were created for Year 6, 7 and 8 (10-13year olds); however, some schools have successfully delivered TechWeCan to Year 5 and Year 9 students (9-14year olds). We have also had children as young as 5 and old as 16 access our TechTuesday lessons. After looking through the resources, if you feel they would be suitable for your class or child, then you are welcome to use them.</p> <p>They are free of charge but require a parent or carer to register.
